

Groupe de réflexion ULP&EH 25/04/2013

Possible EDITAG contributions

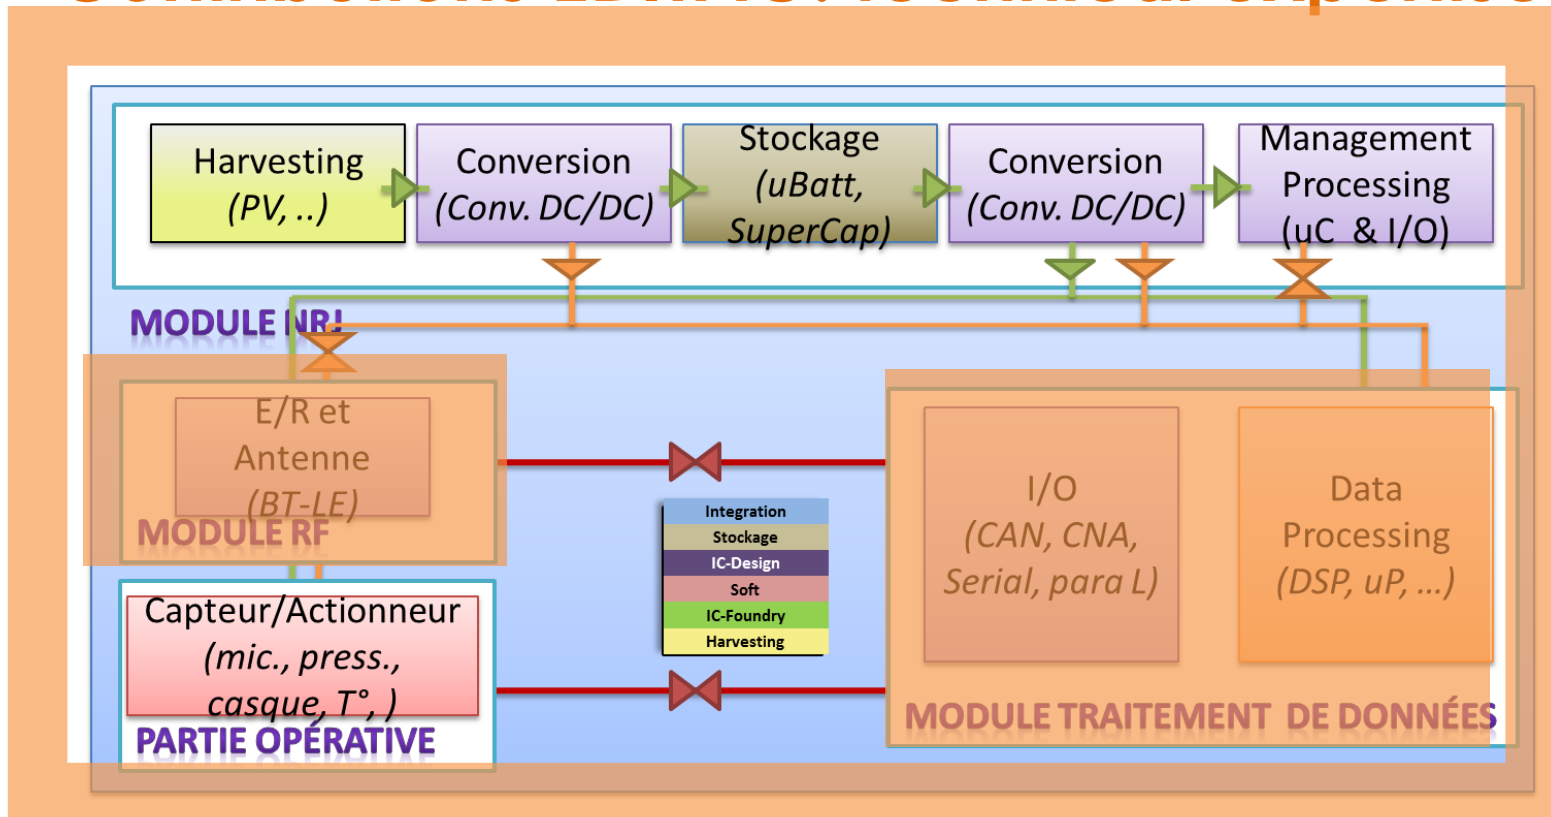

□ Usage case

- Application domains: asset monitoring
- Markets: Industry / high value assets

□ Technical expertises:

- Integration for low-power communicating objects
 - Architecture definition
 - Components selection and validation
 - Electronic/Mechanic integration design
- UWB expertise: pulser, protocol and standards
- Sw development: micro + application middleware (embedded/server sw components).

Contributions EDITAG: technical expertise

Our expectations/needs
